

# Ulti-Line Slate Vents Fixing Instructions

## 600 x 300mm Installation

 <p><b>1</b></p>	<p>Decide position where vent is to be installed, cut and mark membrane and cut Slates 125mm width and 230mm from top</p>
 <p><b>2</b></p>	<p>Fold Envelope section of the Membrane over the top batten and secure into position</p>
 <p><b>3</b></p>	<p>Slide in Vent in Black or Grey, using Copper Rivet for appearance. If being used for extraction also select Flexipipe ULTI3FP</p>
 <p><b>4</b></p>	<p>Fix slate either side of Vent and cut down slate over the top of the Vent, ensuring that side slates lap over the Vent</p>
 <p><b>5</b></p>	<p>Start to lay slate around the vent ensure that these are nailed in line with the Slate manufacturers recommended nail size</p>
 <p><b>6</b></p>	<p>Complete the roof and when finished you will have the Ulti-Line Slate Vent installation completed</p>

## 500 x 250mm or less Installation

 <p><b>1</b></p>	<p>Decide position of Vent, mark out lap line on slate and mark of 2<sup>nd</sup> batten section that needs to be removed. Fix batten for nail fixing of the Vent and cut Membrane</p>
 <p><b>2</b></p>	<p>Cut Slates so that Slate Vent Spigot can fit working on width at Side Lap less 5mm and Gauge less 10mm</p>
 <p><b>3</b></p>	<p>Fix Slate Vent into the Roof, nailing into the additional batten and a Copper Disk Rivet can be used if desired</p>
 <p><b>4</b></p>	<p>Cut and dress slates into the sides and top of the Vent, ensuring that side slates lap over the Vent</p>
 <p><b>5</b></p>	<p>Lay next course of Slate and cut around the top of the grill so that gauge is maintained</p>
 <p><b>6</b></p>	<p>Complete the roof and when finished you will have the Ulti-Line Slate Vent installation completed</p>

Cut out for batten is centre of batten, then 250mm split equally each side  
Cut out is Headlap less 10mm and Sidelap less 5mm
