

Plain Tile Vent

Description

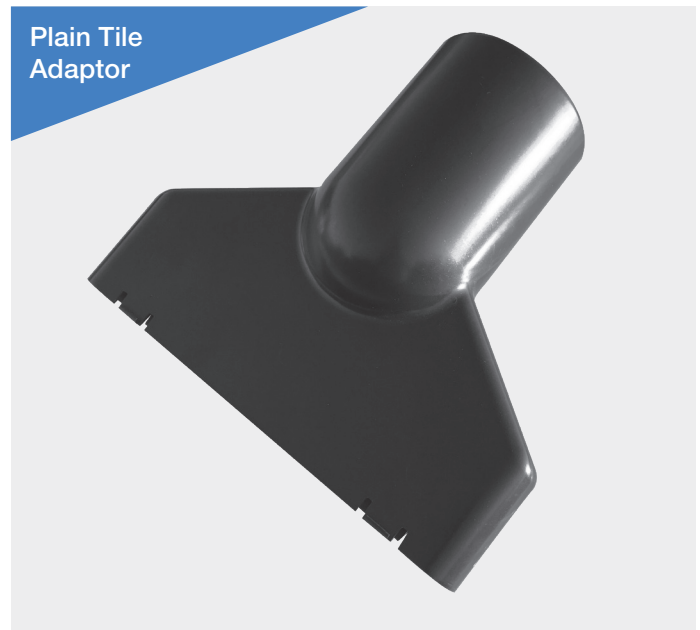

Available in up to four colours, with a 10,000 mm² airflow and can be laid down to 35° roof pitch.

If used for Roof Ventilation for 10,000 mm² space every 1 m for 5,000 mm² space every 2 m

Guidelines for use

Fitted whilst laying the roof (can be retro fitted as well).
Roof membrane needs to be cut to allow penetration into roof space, with membrane folded back over top batten.
Can be used in conjunction with Adaptor ULTI3PTVA and Flexi-Pipe ULTI3FP if connection required.
